

Title	MSC Circulars / MSC/Circ.1002/Corr.1
-------	--------------------------------------

## **MSC.1/Circ.1002/Corr.1**

**3 October 2005**

### **GUIDELINES ON ALTERNATIVE DESIGN AND ARRANGEMENTS FOR FIRE SAFETY**

#### **Corrigendum**

1 The Maritime Safety Committee, at its eightieth session (11 to 20 May 2005), considered a proposal to amend [MSC/Circ.1002](#) to eliminate the requirement to include a reference to the approved alternative design and arrangements in the appropriate SOLAS certificate and, having noted that FP 49 had recommended a similar course of action, agreed that, to that effect, a corrigendum to the circular should be issued.

2 Therefore, the text of the corrigendum is reproduced as follows:

"Paragraph 7.4 (the title and the text) of the Guidelines, set out in the annex to [MSC/Circ.1002](#), is deleted."
